https://github.com/ZaidShabanDev

Dynamic and results-driven Full-Stack Developer with expertise in building end-to-end web applications using modern front-end and back-end technologies. Proven ability to design scalable, secure, and high-performing software solutions that align with business goals. Skilled in collaborating with cross-functional teams to deliver innovative, user-centric features. Passionate about clean code, performance optimization, and staying current with the latest development trends.

PROFESSIONAL EXPERIENCE

INCUBE - Amman, Jordan **Jan 2023 – Present**

Software Developer - Web and Integration

- Designed and implemented new software features using Angular and .NET Core to enhance product functionality and improve the user experience, leveraging RxJS for reactive programming, managing subscriptions for state and event handling, and performing advanced DOM manipulations where necessary.
- Led the upgrade of a large-scale application from an older Angular version to the latest, resolving major dependency, refactoring, and compatibility challenges to ensure seamless performance improvements.
- Designed, optimized, and maintained complex SQL database schemas and queries, utilizing indexing strategies and transaction isolation levels to ensure high performance, data integrity, and concurrency control in large-scale systems.
- Collaborated with cross-functional teams to develop and deploy scalable, production-ready web applications.
- Conducted code reviews and mentored interns and junior developers, promoting clean code practices and high development standards.
- Developed an AI-powered chatbot, initially using vanilla JavaScript, later migrating it to ASP.NET and MongoDB for scalability. The chatbot integrates with any system and uses the OpenAI API with a Retrieval-Augmented Generation (RAG) approach to improve customer support operations.
- Strong domain knowledge in forecasting, warehouse management, CRM systems, and serial number processing.
- Built secure web applications by implementing robust security measures, including protection against SQL injection, cross-site scripting (XSS), and cross-site request forgery (CSRF).

Freelance Projects **Ongoing / Part-Time**

E-commerce Web App (https://www.bazlamitforframes.com/)

Tech Stack: Next.js, Tailwind CSS, Prisma, Zod, Auth.js, Vercel

- Developed a modern e-commerce application with server-side rendering and dynamic routing using Next.js.
- Implemented responsive UI components with Tailwind CSS for a clean, mobile-friendly design.
- Used Prisma ORM for database interaction and Zod for schema validation and error handling.
- Integrated Auth.js for secure, scalable user authentication.
- Deployed the application on Vercel for fast global delivery and seamless CI/CD.
- Built comprehensive payment processing system with Stripe and PayPal integration for secure transactions.

WordPress Site Optimization & UI Enhancement (https://konnektedstudios.com/)

Tools: WordPress (Elementor), Custom CSS, Performance Tuning

- Collaborated with a client to optimize the performance of a WordPress website built with Elementor.
- Improved page load speed by optimizing assets, tweaking layout logic, and reducing plugin overhead.
- Designed and added several custom screens to enhance the user interface and user experience.

TECHNICAL EXPERIENCE

- React.js, Next.js, Angular
- JavaScript, TypeScript, HTML5, CSS3
- Tailwind CSS, Responsive Design
- C#, .NET Framework/Core
- Node.js
- RESTful APIs, API Development
- SQL Server (SSMS), PostgreSQL
- MongoDB
- Database design and optimization

SKILLS

- Full-Stack Web Development
- Version Control (Git)
- Responsive Web Design
- Debugging & Troubleshooting
- Unit Testing
- Performance Optimization
- Client Communication
- Technical Documentation
- Emotional Intelligence

EDUCATION

University of Jordan, Amman - JO **Sept 2018 - Sept 2022**

Bachelor's Degree, ***Management Information Systems*****, School of Business**
